## Richmond Park

Is rapidly proving itself to be what we claimed for it -that of the most desirable Subdivision in the Twin Cities. Last Wednesday we made an announcement in this paper concerning the points of merit in RICH-MOND PARK, and the results certainly justified our action, as we have been kept continually busy answering questions and Selling Lots in this delightful spot.

Strathcona has been quietly growing up into a prosperous City for some time now and the long awaited prosperity is on the verge of sweeping over its entirety. Of all the improvements in course of construction and those about to be commenced, the most important is the High Level Bridge—which upon completion will be the main link connecting the Twin Cities, and by which the majority of people will cross from one to the other. This bridge has already caused a quantity of Speculation, with the result that Strathcona and Edmonton are being talked all over

Outside money is being invested in these Cities and a large influx of people is expected within a \few Strathcona is going to benefit handsomely on this account, and the ideal Subdivision known as RICMOND PARK in which

## 371 Lots are already sold

Is going to become a Fine Residential Centre on account of its unique position.

Whyte Avenue is less than half a mile from the PARK, and the district immediately adjoining is being rapidly built up with fine Residences. Only a road divides these two important properties, thus you are not buying land which is isolated and miles away. It is actually amongst your friends.

If you will allow us an opportunity, we will be

pleased to show you the Property, as we are sure the prospects will be interesting to you. Sidewalks are now laid up to the Sub-division, making it easy walking, and the view obtainable is perfect.

To any purchasers contemplating buying half or whole Blocks we are prepared to make very reasonable terms, and will be delighted to talk this matter over with you. At the present moment the prices for Single Lots can be seen below.

### IMMIGRATION.

Antwerp, March 31.— The diversion of European nigration from the U.S. The diversion of European emigration from the U.S. to Canada is said to be seriously affecting the Atlantic steamship lines. The Red Star today gives up to the American-Canada line two of the best special emigrant steamers afloat—the Gothland and the Samland. These vessels, heretofore

These vessels, heretofore in the Antwerp-New York service, are to be operated from Rotterdam to Canafrom Rotterdam to Canadian ports. There are now 1,500 emigrants bound for Canada held up here by a lack of transportation facilities. There is a proportionate decrease in the emigration to the United Heads of the Canada to the United

### BIG INCREASE IN THE CUSTOMS.

The fiscal year in the customs department closed vesterday and the total figures indicate the great progress that Edmonton is making.

The total customs collections for the fiscal year ending March, 1910, were \$286,-664.22, and for the year ending yesterday \$433,896.18.

#### The Purple PARKDALE Silk Bags

In offering for sale the Parkdale Subdivision of Strathcona we have been placing before the public a proposition which requires only that the facts be known in order to guarantee an immediate sale.

We understand fully that there is at the present time a plethora of subdivisions on the market, many of which are so far removed from the populous centre of the city which they adjoin that no matter what their ultimate value may let it is certain to be many years before the press of population creates a positive demand for them. Our proposition is a block of lots, limited in number, right in the heart of a thriving, growing, busy city. Purchasers of lots in Parkdale will not require to wait for years until the city grows out to their property. The city already extends far beyond Parkdale and property for which a higher price is asked, surrounds it on every side. Residences which have been occupied for years face it on the opposite side of street. The demand is apparent, the terms are easy, the price is low.

As a Residential Property, PARKDALE is admirably situate. Whyte

As a Residential Property, PARKDALE is admirably situate. Whyte Avenue, the main business thoroughfare of Strathcona, paved, electric lighted, with a modern street railway service, is only five blocks from the closest corner of PARKDALE. The new Strathcona post office, which the Dominion Government is building at a probable cost of \$100,000, is scarcely 10 minutes' walk from the lots offered for sale.

All modern improvements will be available for PARKDALE immediately the property is occupied. Water, light, sewer and telephone extensions are already in on Second Street and can be brought in to the Parkdale Sub-division without delay by petition of the ratepayers who will establish homes there.

From the main business centre of Edmonton, when the new high level bridge has been completed, which will be within a year, PARKDALE will be scarcely more than ten minutes' ride by street car, the total distance being barely two miles. By arrangement between the cities of Edmonton and Strathcona a five cent fare will carry a passenger from any point in Strathcona to any point in Edmonton.

"THE BEAUTY SPOT OF THE TWIN CITIES"

The New Auto Drive The High Level Bridge Amalgamation of the Two Cities

These things are assured. They are not speculation. They are begun. The University alone made them necessary. Do you know how to take advantage of these great factors?

The selection of a home site demands the profoundest thought.

When you have pictured the style of home you want you don't attempt to design it. You consult a mind trained to do it for you. The location of that dream home of yours is of far greater importance than the structure itself. You cannot build artistically on unsightly ground. A castle in a hollow would be a strange specground. Let the common sense that guides you in consulting an architect prompt you now.

The men who chose the University Site chose after great deliberation. Their judgment should guide you. Build your home on equally beautiful ground near the Univer-Build sity. The University, in all University Cities, being the artistic centre, is the nucleus of the most fashionable and exclusive residences. This is inevitable.

From this inducement you are securing property that is oppo-site the cities' great park, Laurier. The New Auto Drive will encircle the property. Are these brief facts worth considering or not? Name any university in the world where you can secure such lots as we offer at such figures. and the second second second second

THE CONSERVATIVES ARE STILL SADLY DEMORALIZED

Special to the Bulletin.

Ottawa, March 31.—The organization of the Conservative party still seems at sixes and sevens. Borden has been prevailed upon to remain, but hast night it was given out from Conservative headquarters that McBride and Rogers would, join in Federal party. Today the report was contradicted as far as McBride is concerned. The British Columbia premier apparently refuses to have anything to do with the party in its present segregated condition. Rogers is, however, likely to throw in his lot with the malcontents located temporarily at the Russell House, Ottawa, and to undertake to teach the Opposition in political and electoral strategy. With Borden the nominal leader in the House, and Rogers in charge of the machine outside, further clashes are likely to occur.

the nominal reader in the charge of the machine outside, further clashes are likely to occur.

Hon. Mr. Fielding announced today that he expected to deliver his budget speech on Tuesday, when further reference to the British preference may be expected. The minister may also make important changes to the reciprocal trade arrangement and officially note the growing popular enthusiasm for it in all parts of Canada. Even in the eastern cities and the himneial head-quarters the voice of people is now being emphatically extended.

Toronto has communicated with the Minister of Finance, urging him to come to that city and address a mass meeting on the subject. The success which followed Air. Fielding's great meeting at Montreal has resulted in requests from many eastern cities for a visit from the Finance Minister.

Indications are that western progress has triumphed completely over eastern corporations. Conservatism, and that supporters of reciprocity will assist. Sir Wilfrid Laurier, it is predicted, will sweep the country at the next election from the Atlantic to the Paelife.

### SOME REMARKABLE CASES

INDIGESTION & LIVER DISORDER

### CURED BY MOTHER SEIGEL'S SYRUP

Throughout the whole of Canada, it would be difficult to find a village, or even a street of over twenty houses, in which there do not reside persons who finally state that they owe their present good health to the old and world-tamous remedy. Mother Seigel's Syrupar The extent to which this well-known remedy is used as the regular family medicine, for all those troublesome adments which arise from stomach or liver disorder, would be surprising were it not for the fact that this root and herb extract has established itself as a popular favourite, by reason of the remarkable cures it has effected all over the world. Here are three cases in point:—

drs. C. S. Gildeart, of Proster Brook, port Co., N.B., suffered severely from ligestion. In writing to the proprietors Mother Seigel's Syrup, on Jan. 18, 1910, s. Gildeart said:

I had much wind in my stomach and bowels, my heart palpitated; indeed I had aches and pains too numerous

to mention.

"Many medicines failed to aid me, and I only began
to take Mother Seigel's Syrup as a last resort. After
the third bottle of Syrup, I felt the benefit of using it

These letters are typical of tens of thousands received by the Proprietors of Mother Seigel's Syrup, and their genuineness can easily be proved by anyone who will take the trouble to do so. To any fair-mided person, they cannot fail to establish the merit of this old family medicine. Indeed, the very fact that Mother Seigel's Syrup, with its record of over forty years' unbroken success, has stood the severest of all tests—the test of time—should convince the most sceptical that there must be some great merit or quality, in this root and herb extract, which is not found in any other medicine known to the public, and which accounts for its world-wide popularity and success in curing disorders of the stomach and liver.

## THE FINEST FARM IN WESTERN CANADA FOR SALE

## "Tighnduin" Stock Farm

".TIGHNDUIN STOCK FARM," which consists of 1,920 acres, is situated 4½ miles from Lashburn, Saskatchewan, a small farming town on the main line of the Canadian Northern Railway from Winnipeg to Edmonton, Lashburn lies 180 miles east of Edmonton and 635 miles west of Winnipeg.

There are close on 1,000 acres under cultivation, the average crop of wheat last year being thirty bushels to the acre. The land has been well cultivated and is in excellent heart and condition. Nearly thirty acres are laid down in brome grass and alfalfa, both of which crops are in good health. The latter was inspected by an authority last fall who remarked that this was the best stand of first year's alfalfa that he had seen

The farm has only been worked two years, so a purchaser can form an opinion as to what condition the land is in.

The whole farm is fenced and cross-fenced with Page wire fencing, the best that

The whole farm is reliced and cross-ience with Page wire lending, the best that can be used for the purpose.

There are three good wells which give an abundant supply of water.

The buildings, which have all been erected within the last two years, are in first rate condition and are as follows

HORSE BARN. This is a wooden building on a stone foundation with 28 stalls and 23 box stalls. One of the wells is situated in this building and is pumped by a small gasoline engine, which also works a feed grinder. There is ample loft accommodation and compartments for grain. Patent manure and feed carriers and hay tracks are fitted up which save manual labor to a large extent. There are also three harness rooms.

PRIVATE STABLE. Containing accommodation for 8 head of horses, harness room, feed bins, good loft and carriage shed, is built of lumber on stone four-dation.

CATTLE BARNS.—These (two in number) are built of the same material as horse built on stone foundation and have accommodation for 43 and 45 head repectively, also ample loft space, feed rooms, etc. One barn contains an electric motor for grinding feed. These barns also contain manure, feed and hay

PIGGERY. A wooden building with stone and cement foundation with 20 pens and the same number outside in connection therewith, also grain bins and

VER HOUSE. This is a wooden building on stone and cement foundation. There is a 20 h.p. Fairbanks Morse gasoline engine for generating electricity which lights the buildings on the form. There is also a well and water tanks for supplying the whole water system. A smaller gasoline engine works the pump for the well. There is also a battery room. The building is heated POWER HOUSE.

IMPLEMENT AND EXERCISE SHED. These are of lumber. The former contains accommodation for steam engine for threshing and plowing.

BLACKSMITH'S SHOP .- Built of lumber with forge.

MANAGER'S HOUSE. Built of lumber on stone foundation with verandah on two sides; contains sitting room, parlor, kitchen, bath room, office, and five bed-rooms with good celler and outside coal shed.

MEN'S HOUSE. Built of lumber on stone foundation with verandah on two sides, containing sitting room, kitchen, five bedrooms and cellar and coal bunker.

containing sitting room, kitchen, five bedrooms and cellar and coal bunker.

FARM HOUSE. Brick foundation and humber body. Contains dining room, buildiard room, drawing room den, office, cleak room and layatory, kitchen, partry, two stone pressed milk rooms and cold storage. Upstains there are 10 bedrooms, 3 bathrooms, hot and cold water, and three bedrooms for maids. The house is heated by hot water furnace. There is an excellent basement with coal bunkers, laundry and root house. There is also a fine green-house with independent nurse. The dining room, billiard room and den are panelled in oak, and the drawing room in birch. There is a verandah which encloses two sides of the house. The house is huntriously furnished throughout; with billiard table and billiard accessories.

The grounds are tastefully haid out with young trees and shrubs and flower beds. There is also a tennis court and kitchen garden.

There are three paddocks and two small pastures close to buildings, also four large pastures, one of which contains a shed,

Such stock and implements as are on the farm can also be purchased. The stock is mostly pure-bre l.
